Fritzing Example

Fritzing Example

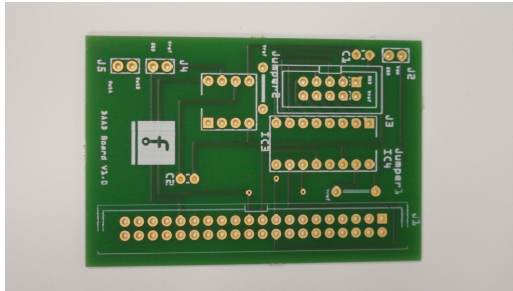

- This was my first attempt at producing boards using Fritzing.

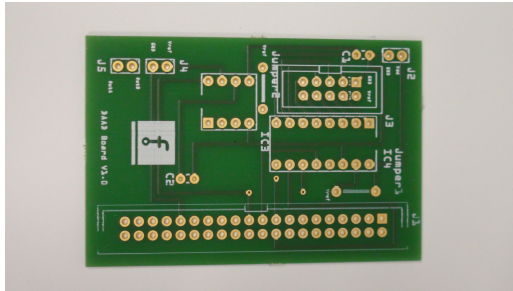

Fritzing Example

- This was my first attempt at producing boards using Fritzing.
- The minimum order is 3 boards.

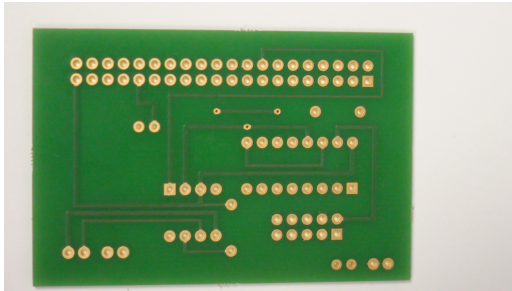

Fritzing Example

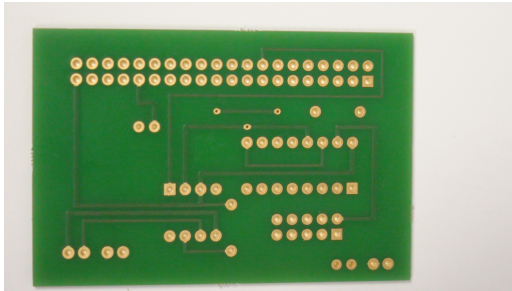

- This was my first attempt at producing boards using Fritzing.
- The minimum order is 3 boards.
- The cost was \$25.72, and it arrived within two weeks.

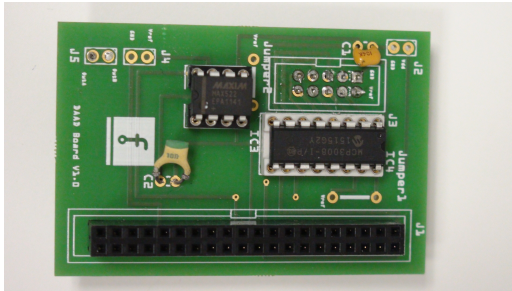

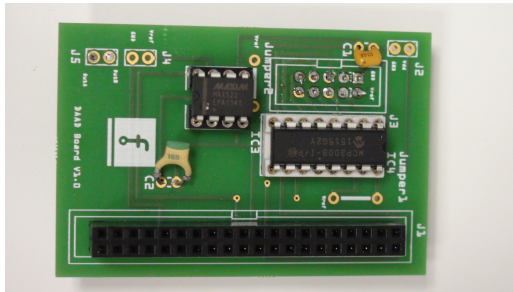

My Fritzing board (front)

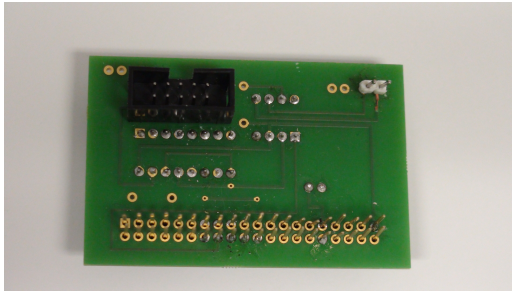

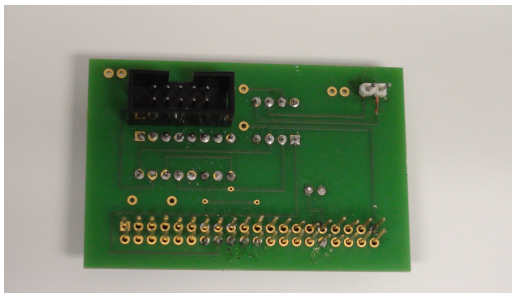

My Fritzing board (back)

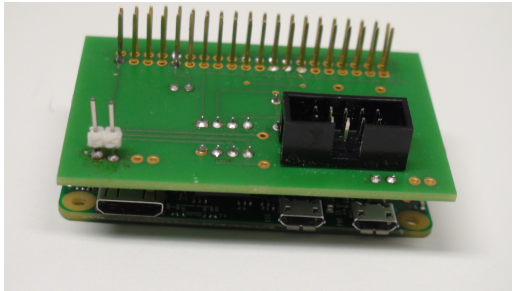

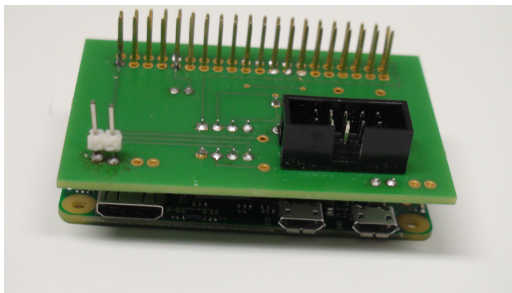

My Fritzing board (front - populated)

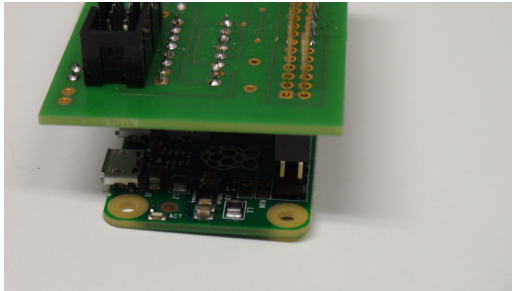

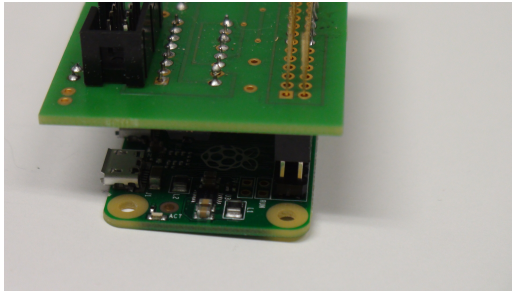

My Fritzing board (back - populated)

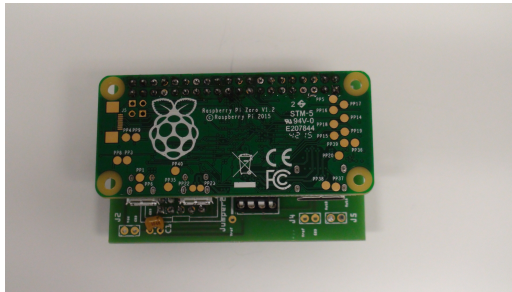

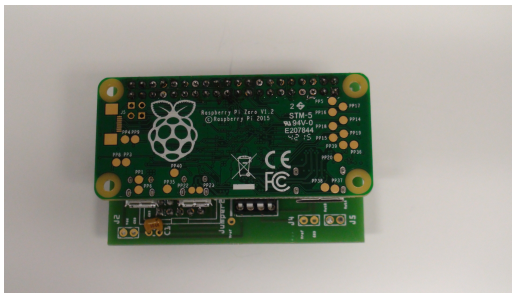

Here it is on a Pi Zero (side view)

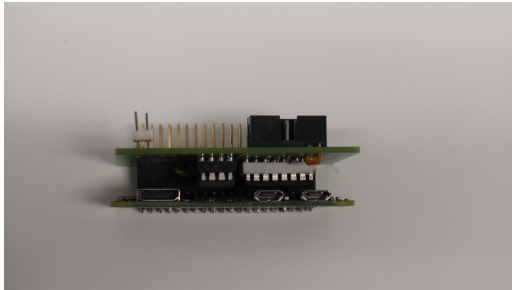

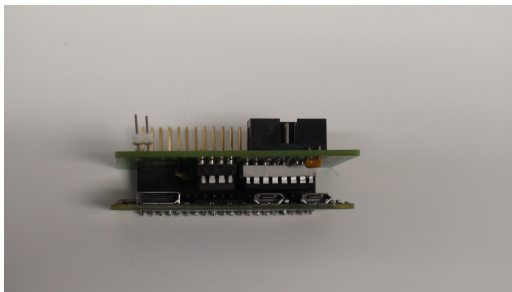

Here it is on a Pi Zero (end view)

Here it is on a Pi Zero (bottom view)

There's just enough height for the chips in sockets.

Next time

Next time

- I'll be more aware of what's on each side of the board.

Next time

- I'll be more aware of what's on each side of the board.
- If I'm doing a circuit for the Pi, I'll see if there's a Pi Zero board outline.
