DESCRIPTION

The LTP-2 x 58A series are 2.3 inch (30.48mm) matrix-height 5 x 7 dot matrix displays.

The LTP-2458AA/2558AA are multicolor applicable displays. The multicolor displays have gray face and white dot color.

The LTP-2058A / 2158A series are single color displays. The green, yellow and orange displays have gray face and white dot color. The high efficiency red displays have red face and red dot color.

The green series devices utilize LED chips which are made from GaP on a transparent GaP substrate.

The yellow, orange and high efficiency red series devices utilize LED chips which are made from GaAsP on a transparent GaP substrate.
